

Dear Parents,

We are Excited to Announce Our Environmental Education and Fundraising Program!

Think Recycle is an environmental fundraising program offered to *Beekman Elementary* to help educate our students about recycling while raising much-needed money for the *school*.

The Think Recycle program is simple! Students collect unwanted cell phones, inkjets, toner cartridges and digital cameras from the community and return them to the Think Recycle box in the lobby. As a result, Beekman Elementary will earn money for every qualifying cell phone, inkjet, toner cartridge and digital camera returned! Think Recycle will also donate funds to have one tree planted for every 24 qualifying products we collect through their partnerships with American Forests! We've had 2 trees planted from last year's contributions.

It's a Program that's Good for the Environment and Good for *Beekman*!

We request your support in ensuring the success of this simple, cost and hassle-free fundraising program. Your family, neighbors and even your place of employment can also support your child's school by donating unwanted cell phones, inkjets, toner cartridges, digital cameras, and all of the accessories that go with them by sending them into school with your child.

Your support of the Think Recycling program will help teach our children more about the importance of recycling, the benefits of tree planting and help to raise needed money for *our school*. *Everything is recycled*.

If you would like more information, please speak with your *Beekman Elementary* Think Recycle Advocate. You can also visit www.thinkrecycle.com or call toll-free at 1.888.265.2895 to speak with a Think Recycle Representative.
